

Environmental Systems Corporation

is a proud TANGO Partner

Services: Building System Technologies and Consulting

Since 1972, ESC has been helping facility owners and managers enhance building performance by planning and integrating solutions that optimize comfort, security, life safety, energy efficiency and audio/visual technology. As a systems integration company, we tie together dissimilar brands and types of systems into one seamless front-end interface. We are known for state-of-the-art technology solutions and exceptional customer service.

Our experience working with nonprofit companies is extensive and we look forward to working with the TANGO members.

Our services include:

Energy Solutions – ESC’s Energy Efficiency Solutions, is a conservation program that reduces energy consumption while lowering overall operating costs. The program can use little or no capital expenditures because it takes advantage of Utility incentives and positive cash flows from the energy conserved.

Security – ESC offers a complete line of Security, RFID Access, and Video Surveillance systems. We develop custom designed solutions to meet your specific needs.

Building Automation Services – Providing Comfort, reduced energy consumption, precision operating information and control.

Fire Safety – We install and service fire alarm and emergency communication systems that deliver reliable incident notification to protect occupants and support first responder efforts to save time, lives and property.

Audio/Visual - We offer the latest A.V. technologies with experienced technicians installing and servicing Video monitors, lighting controls, central clock, public address, auditorium sound, sound masking and fully integrated classroom and meeting room systems.

HVAC – We install, maintain and service heating, ventilation, air conditioning and mechanical systems that reduce operating costs and improve overall building performance.

SPECIAL SAVINGS FOR TANGO MEMBERS:

At no charge ESC will conduct a facility survey for your building starting with Energy solutions and including any or all of the ESC offerings. Furthermore, ESC will offer Tango Alliance members preferred pricing to ensure your needs are met as cost effectively as possible.

TANGO Regions Served: Connecticut, Massachusetts, New York, Rhode Island
