Services: Talent & Strategy

OE Consulting (“OE”) is an Organizational Effectiveness consultancy that helps purpose-driven organizations and philanthropies ensure that their strategy, structure, and talent are optimized and working in harmony. Whether we are placing a CEO, facilitating a strategic plan, or redesigning organizational structures, our work produces clarity and trust.

It’s unusual for a firm to practice both executive search and deep strategy work. We combine the services because, over decades of work, we learned a crucial lesson. When talent, strategy, and organizational structure are in close and intentional harmony, when every contributor understands the why as well as the what, when outcomes are ever in mind, transformation follows.

KEY SERVICES

Talent: Character matters. It’s reasonably simple to hire for skills. We pay attention to the whole leader.
